

Assignment 1: Java Basics

Never 0	Rarely 2	Sometimes 3	Usually 4	Always 5	
_____	_____	_____	_____	_____	Structure
_____	_____	_____	_____	_____	Program factored into appropriate methods
_____	_____	_____	_____	_____	Methods of appropriate length and complexity
_____	_____	_____	_____	_____	Comments
_____	_____	_____	_____	_____	Files and methods begin with appropriate comments
_____	_____	_____	_____	_____	Comments used to describe main computations
_____	_____	_____	_____	_____	Format and Use
_____	_____	_____	_____	_____	Program easy to read and understand
_____	_____	_____	_____	_____	Indenting helps clarify logic and readability
_____	_____	_____	_____	_____	Appropriate use of iteration and conditionals
_____	_____	_____	_____	_____	Testing
_____	_____	_____	_____	_____	Rationale given for test cases
_____	_____	_____	_____	_____	Test cases appropriate to problems
_____	_____	_____	_____	_____	Test cases cover a sufficient range of possibilities
_____	_____	_____	_____	_____	Output indicates whether program passes tests
_____	_____	_____	_____	_____	Design and Correctness
_____	_____	_____	_____	_____	Method <code>isMultiple</code> operates correctly
_____	_____	_____	_____	_____	Method <code>isOdd</code> operates correctly
_____	_____	_____	_____	_____	Method <code>oddSumTo</code> operates correctly
_____	_____	_____	_____	_____	Method <code>isOddProd</code> operates correctly
_____	_____	_____	_____	_____	Method <code>allDistinct</code> operates correctly
_____	_____	_____	_____	_____	Method <code>reverseArray</code> operates correctly
_____	_____	_____	_____	_____	Method <code>readBoolean</code> operates correctly
_____	_____	_____	_____	_____	Exceptions are handled/thrown appropriately
_____	_____	_____	_____	_____	Exceptions are declared, documented, and explained
_____	_____	_____	_____	_____	Total
<u>×0</u>	<u>×2</u>	<u>×3</u>	<u>×4</u>	<u>×5</u>
