

Assigned: Tuesday 27 October

Due: Monday 2 November 10:30 pm

Collaboration: This assignment must be completed with the partner(s) from your lab section.

Presentation: Number problems in order and present code in a fixed-width font including comments that make each instruction's purpose clear.

Submission:

- Upload a PDF with your names, box numbers, and all solutions to PioneerWeb.
 - Demonstrate your solutions for verification during your lab section on November 3.
1. Include your modified file `blinky.S` from *Lab 6: Blinking Lights*.¹ Partial credit will be granted for completing part B. For full credit you should attempt part C. Particularly creative solutions to part C may receive extra credit.
 2. Include your modified file `song.S` from *Lab 7: Play a Song*.² You may receive extra credit for implementing a song of your choice or other creative extensions.
